

RED DEER GIVEN LADIES COLLEGE

Committee of Presbyterian Synod
Decided Denominational Col-
lege Should Be There

WILL SELECT PRINCIPAL

Committee Appointed to Find
Head Master Who Will Or-
ganize the School

(Special to the Capital)
Red Deer, July 27.—At the meeting of the committee of the Presbyterian Synod of Alberta at Red Deer yesterday to select a site for a ladies' college under the auspices of the synod, the Jamieson site of twenty acres at Red Deer was unanimously chosen. There were present Rev. Dr. McQueen, Edmonton; Rev. W. G. Brown, Red Deer; Rev. W. D. Reid, Calgary; Judge Lees, Red Deer; J. C. Butchart, Vegreville; Henry Jamieson, Red Deer; W. L. Hamilton, Pasadena; Rev. J. E. Duglos, Edmonton; Rev. Mr. Clark, Calgary; and Mr. J. D. Hightsham, Lethbridge, and others members of the committee sent their tribute to the meeting.

Eight Towns Wanted College

Offers of free sites, subscriptions and other advantages for the college were submitted in person or by letter on behalf of Strathcona, Camrose, Vermilion, Dayland, Calgary, Lethbridge, Hardisty, Red Deer.

After a prolonged discussion, Rev. Mr. Reid and Mr. Hamilton moved the selection of Red Deer on account of its central location and residential advantages. This motion carried and was then made unanimous.

Revs. McQueen, Reid and Brown were appointed a committee to select a principal, who will undertake the work of organizing the college.

INCENDIARISM AT CROSSFIELD?

Three Fires in Twenty-four Hours
—Elevator Burns and Quantity of Wheat Destroyed

Crossfield, Alta., July 28.—Three fires of mysterious origin have occurred in Crossfield and the vicinity within the last 24 hours.

The latest conflagration happened last night, when an elevator owned by the Imperial Elevator Company was burned to the ground. Ten thousand bushels of grain were in the building at the time and the total loss will be considerable.

It is feared that an incendiary is in the neighborhood. A vacant house owned by Mr. MacLeod, seven miles from Crossfield, was burned a few hours previously and an empty barn a couple of miles out of town, owned by J. S. Davey of Crossfield, was also burned yesterday.

The elevator has not been in constant use and the manager was absent when the fire took place. The people of the town and district are anxious because of the suspicious circumstances surrounding the origin of the three fires.

Sheriff Says He Can't Control
G. T. R. Strikers in
Michigan

Lansing, July 28.—The Grand Trunk strike situation has reached such a critical stage here that two battalions of the Michigan National Guards have been ordered into the arms to await orders that might be forthcoming to move to Durand. The sheriff and prosecuting attorney say they cannot control the situation without aid from the governor of the state.

FIGHTING IN TROPIC

Constantinople, July 28.—The Porte has received a cyber telegram announcing that there has been fighting on the frontier of Tunis Tripoli between French and Turkish troops. The Porte's information is to the effect that the French lost several hundred killed and wounded.

KIPLING SUGGESTS PNEUMATIC ARMOUR

Good for Aviators, He Thinks,
Especially When They Bump
the Earth

London, July 28.—Pneumatic armour for aviators, that will prevent spinal column from being stepped, is the novel suggestion just made by Rudyard Kipling.

Kipling admits that the suggestion will never be realized, but stoutly defends it. He says aviators should at least wear inflated rubber helmets and a protection to the back and shoulders not heavier than the plaster once worn by fencers.

"Such a device would protect the spinal column and head of the aviator," Kipling says, "and turn an unfortunate smash into a mere horrid jarring."

He illustrates his article with sketches by himself.

PRESS PARTY IS MUCH PLEASSED

'The Farther North We Go the
Better the Country Looks'
Says Telegram

The first news of the progress of the Cornwall press excursion into the Peace River country came this morning in the shape of a telegram from Halfway Lake to President McGeorge of the Board of Trade. The telegram was signed by Mr. J. H. Morris and read as follows:

"We arrived here safely at 8 o'clock. Everybody delighted with trip and country. Crops are splendid. I do not think the members and citizens of Edmonton half realize what Mr. Cornwall is doing for this country. Writing details of trip to Landing. The farther north we go the better the country looks. I had no idea that the country was so good."

WATCHING FOR CRIPPER

Officers Will Board Montrose When
She Reaches Rimouski

Ottawa, July 28.—Colonel Sherwood, head of the Dominion police, has instructed Chief Constable Gaveau at Rimouski to be on the watch for the S.S. Montrose, on which Dr. Crippen, wanted in London, Eng., is supposed to be a passenger. That official will board the ship at Father Point and if Crippen is apprehended he will be taken to Quebec.

NEW STYLE SKIRT CAUSED ACCIDENT

New York, July 28.—A hobble skirt nearly caused the death of Miss Eva Stuart late Thursday afternoon. In an attempt to get out of the way of a taxicab which was passing at a terrific speed, Miss Stuart, who is an actress, was unable to properly manipulate a new hobble skirt which she tried on yesterday for the first time.

As she rushed to the north-west corner of the street she tripped and struck her head against the pavement, receiving what is thought to be a serious injury. The tightness of the skirt prevented the actress from getting on her feet, and she lay with her bleeding head against the pavement until a passer-by picked her up.

G.T.P. LIKELY TO USE C.N.R. RIGHT OF WAY

General Manager McLeod Tells
of Plans of C. N. R. for
Calgary

ROUTE THROUGH CITY

Will Take Up Plans With Calgary
City Council Today—
Big Union Station

(Special to the Capital)
Calgary, July 28.—That in all probability the Grand Trunk Railway will come into Calgary on the right of way of the C. N. R. and that there will be a joint station, bigger and better than any west of Winnipeg, is the statement of W. H. MacLeod, general manager of the C. N. R. western lines. Mr. MacLeod arrived from the north yesterday afternoon for the purpose of laying the plans of the proposed route of the C. N. R. through the city before the council. A special meeting of the council has been called for today to consider the C. N. R. plans.

"We have been in communication with the G. T. P.," said Mr. MacLeod, "and that company seems willing to use our right of way through the city of Calgary. If that is agreed upon, then out of the Grand Trunk line terminals west of Winnipeg will be put up. We are prepared to spend about a million and a half dollars on station, right of way and construction in Calgary."

"No, we haven't quite decided about the hotel yet," replied Mr. MacLeod in answer to a question on the subject.

QUARREL ENDED IN MURDER.

New York Tailor Killed His Wife
and Tried to Suicide.

New York, N.Y., July 28.—In the presence of his five little children Abraham Kosh, a tailor, after quarrelling with his wife, plunged a broad knife into her neck to-day and then slashed his own throat. The woman, her jugular vein pierced with the thrust, fled with a cry to the first policeman he saw, who took her to the hospital, where she died half an hour later.

VOTE WILL BE CLOSE

London, July 28.—There was a bitter fight in the House of Commons today, followed by street demonstrations, when Premier Asquith moved the second reading of the King's Accession Declaration Bill. The Non-conformists forced an amendment that united the high churchmen, and anti-Catholic elements in opposition, so the vote will be close.

CALGARY KICKS ON POST OFFICE

Board of Trade Says General Del-
ivery Is Slow—Doesn't Like
Business Tax, Either

Calgary, July 28.—At a meeting of the Board of Trade in the Builders' Exchange room last night, protests were entered against the "abnormal" business tax in Calgary, as compared with the other cities, and a slow process of the general delivery of mail and found that it averaged one and a half minutes for each person.

Mr. Georgeson, the president, said that the board had made representations to the government about the lack of facilities at the present post-office to meet the needs of a rapidly growing city, but it was hard to get the government to grasp the idea that places in the west grew so fast as they did.

Mr. Georgeson pressed for the abolition of the business tax, on the ground that it was antique, excessive and gave the outsider an advantage over the business man in the city.

LET'S JOIN FORCES

The Dominion Census will be taken next June. Why should not Edmonton and Strathcona become one city of forty or fifty thousand, instead of remaining two small cities? Many prominent citizens of the two towns think amalgamation would be the best possible move. What do you think?

"It would be better for us as a community," said Alderman Tipton of the city of Strathcona, "to have one large city, than two small ones; provided that an equitable and amicable agreement can be reached, two towns operated under one head could be conducted more economically than under two separate heads."

"Now that the high level bridge question is settled the cities will be practically one and the same. It will take a couple of years to bring about amalgamation provided the people want to amalgamate. Joint committees of the two city councils would have to be formed and the agreement ratified by the legislative assembly."

Mr. A. C. Fraser, manager of the Merchant's Bank, Edmonton, said he would like to see the union of Strathcona accomplished as soon as possible. "It will mean a lot in the way of civic economy," he said, and in the matter of publicity, it will cause a unit of purpose with a stronger central organization. Much more could be accomplished in the way of advertisement by a united effort rather than by the two municipalities carrying on individual publicity campaigns."

CONDITIONS ARE NOW MUCH BETTER

C. P. R. Crop Reports Indicate
That Rain Last Week Has
Improved Prospects

Calgary, July 28.—The C.P.R. crop reports mention the near approach of harvest. Grain cutting will commence in many parts about the middle of August. The expected average yield at Crossfield is: Wheat, 30 bushels to the acre; oats, 25 bushels; barley, 25 bushels.

At Carstairs crops are looking fine. Rain fell for three hours last week and the crop was much benefited. At Didsbury five hours' rain fell and the crops are looking good. There has been no damage so far.

Twenty-five per cent. of the crops at Olds has been damaged by drought. The grain at Bowden is looking well and making good progress. Rain fell for five hours.

The weather has been warm at Innisfail and a light rain fell. Prospects are good. The same conditions prevail at Penhold.

Good at Red Deer

The crops are in splendid condition at Red Deer and about ten hours' rain fell last week.

The expected yield at Blackfalds is: Wheat, 35; oats, 65; barley, 35.

At Leduc the crops look fair. Abundant rain fell last week.

The harvest around Dayland will commence about August 15th. The weather has been dry and rain is needed.

The last week at Strome helped the crops. Light showers and good growing weather prevailed. The prospective yield is: Wheat, 18 bushels to the acre; oats, 35; barley, 40; and flax, 2.

Things look good for a fine harvest at Sedgewick. The expected yield there per acre is: Wheat, 25 bushels; oats, 30; barley, 35; flax, 20.

The harvest at Hardisty will start about the middle of next month. Expected yield per acre: Wheat, 30; oats, 30; barley, 40. Twelve hours' rain fell last week.

At Erskine the harvest will yield two-thirds of the usual crop. Hail fell in small quantities, but no damage was done.

Improving at Settler
Conditions at Seattle are improving. The expected yield per acre is: Wheat, 20 bushels; oats, 25; barley, 12; flax, 15; hay, 1 ton.

SIXTY BUSHELS AN ACRE

That Is What One Wheat Field
Near Agricola Will
Yield

Mr. J. L. Porte, who has just returned from a tour of the country round Edmonton inspecting the crops, brings in a very favorable report of the prospects for this year.

"It will be a good average crop," he said. "Some of the old land crops will be light, but on some there is the chance of a second growth, and should the weather prove favorable, there is no doubt that the harvest in the Edmonton district will be a satisfactory one for everybody."

Mr. Porte visited west of Leduc, Clover Bar, Agricola, Hortsburg and other points close to Edmonton.

Will Give Sixty Bushels
At Agricola, he said, he saw thirty acres of wheat as good as any he had ever seen in Alberta, while in the same place he saw seventy acres of spring wheat which would give sixty bushels to the acre—of course, he added, there are other fields that will not produce more than twenty-five bushels to the acre.

South of Strathcona everything looked favorable. The crops were as tall as last year, but was heavy to the ground. In places they were exceedingly fine and again in others they were light, but the general outlook pointed to a really successful crop.

Reports say that generous assistance must be rendered immediately or suffering will result.

HARVESTING AT PORTAGE

Portage, Man., July 27.—The 1910 harvesting on the Portage Plains was started this morning and the farmers turned their binders into the barley and oat fields. Harvesting will not be general for ten days or two weeks yet. It is hard to place an estimate on this year's yield, but in this district it will be fair, though not up to the usual standard.

COMMISSIONERS STRUGGLE WITH POWER HOUSE TANGLE

Mr. Child who holds a contract for a new power plant, has applied to the city commissioners for an advance of \$500, on his contract, and in connection with the application there was a lengthy conference this morning between the mayor, city commissioners, Superintendent McNaughton, and City Solicitor Bowen, which started at 10.30 and lasted until 1.30. There was a decision made as more information will have to be secured in connection with the material which Mr. Child's contract to supply.

Have To Show Them
The commissioners, who wish to satisfy themselves beyond a doubt, before recommending to the council that an advance be made, that Mr. Child is entitled to it. The contract with Mr. Child contains the condition that no money was to be paid him until the contract was completed, but that his workmen should be paid as the work proceeded. The contract price was approximately \$8000 and it has to be shown that the wages paid out already and the estimated cost for the completion of the contract does not exceed the original price tendered by Mr. Child. Together with this must be considered the material which Mr. Child is under contract to supply.

French Family Bought to Mount-
ed Police Barracks, Gave
Constables Lively Time

A Frenchman and his wife, both of whom are alleged to be insane, were brought into the Mounted Police barracks this morning from St. Albert accompanied by their six children. At half past ten last night a phone message from St. Albert announced that the two were acting fairly quietly and requested that the mounted police investigate. Corporal Marshall and Constables Warring and Warrior immediately left in a wagon for St. Albert and on their arrival there took the whole family into custody. On account of the lateness of the hour and the fact that the police couldn't talk French, their names could not be ascertained nor any particulars concerning the party.

Show Fight
As the party entered the yard of the barracks the Frenchman began to show fight. The woman also took a hand and when the children, who were from six to ten years of age, saw their parents getting the worst of it, they also joined in and gave the officers the busiest quarter of an hour they have experienced for some time. The family were finally overpowered and lodged in a cell.

THURSDAY, JULY 28, 1910.

The cartoonist of the Toronto Telegram hits the G.T.R. strike situation well. President Hays and the head of the union men are engaged in a fight, a fight which is not a struggle in between them as they lunge at one another. "Cheer up, boys," he exclaims, "once in a while you may miss each other, but you'll land on me." The loss to the company and to the men of such a struggle is heavy, but the greatest sufferer is always the public. Many eastern communities are wholly dependent on the Grand Trunk and as the freight service has been almost entirely suspended and the passenger service seriously disarranged, business is in a bad way. It is because of this loss sustained by those not directly interested that such legislation as the Lemieux act was introduced. It has been the means of averting many strikes by forcing arbitration proceedings before actual conflict takes place. It cannot make it compulsory for either party to accept the verdict of the arbitrators. But it trusts to public opinion to uphold the hands of those who have shown their willingness to abide by that verdict. The contention of the G. T. R. that it is not able to pay as high wages as the C. P. R. because it has not been in receipt of public aid to the same extent as the rival road is of decided interest. The C. P. R. can certainly afford to be generous. A recent calculation shows that with the prices that its land has brought in recent years it has received a direct gift from the Dominion of over \$24,000 a mile on its lines, including branches and sidings.

The very considerable enlargement that is being made to the Griffin packing plant this summer indicates great an undertaking that is likely to develop into an early date. It is less than two years since it commenced operations. When constructed, there were those who declared that it was altogether too large for the field to be served. But with greater capacity already being provided and at a time when live stock supplies are away below the demand, it looks as if those behind it were satisfied with the outlook. Every week a special train of ten cars leaves Edmonton loaded with Griffin products, destined for the Yukon. When direct connection is established with the Coast, this trade should see a great expansion.

The Ottawa Journal is too enterprising a newspaper. On the evening of July 23rd it had a despatch from Edmonton telling of the hanging of the murderer King. The Journal should be more familiar with the vagaries of the department of justice to make this slip.

Calgary's newly appointed parks commissioner is taking up his work energetically and is receiving heavy support from the citizens. It is calculated that about \$100,000 will be spent in putting the different parks in proper condition. Edmonton has much greater natural beauty of situation than its southern neighbor, but it is wise to retain its reputation as an attractive place of residence if it must spend a little money on preserving the advantages which Nature has given it. Of course, there is little use having a parks commissioner without some parks for him to look after. We are, in this two stages behind Calgary. When are we going to wake up to the need of doing something along this line.

What Others Say

A TRULY GREAT MAN

(Ottawa Free Press.)
Charles M. Hays of the G.T.P. has achieved true greatness.
He has accomplished many things, this truly great man. He has forged his way to the van of railroad magnates. He came and he saw and he conquered. He came to Canada; he saw the debris of a railroad wallowing

in the bogs and marshy places; he conquered all the giant difficulties which sought to prevent him from fitting up these railroad tracks from the low-lying levels onto the solid rock.
True, Chas. M. Hays has done all this. But this in itself is not necessarily the sign of true greatness. Many and many a man is doing the same thing on a smaller scale every day of every year.

It may be that Chas. M. Hays is to be knighted upon the completion of the G.T.P. It is a sort of precedent that knighted him to adorn the active heads of Canada's transcontinental railways. But to be knight is not necessarily to be truly great nowadays. There are many tool-knights.

What, then, is Charles M. Hays' insignia of true greatness?
Here it is: He has had a cigar named after him.

Z. W. Mitchell off for England in interests of Loyal Legion of Labor

Z. W. Mitchell, supreme master of the Loyal Legion of Labor, left this morning for England where he is to interview Andrew Carnegie, the great steel magnate and philanthropist, with the idea of securing assistance from him for the order. The Loyal Legion of Labor is an order which works in the interests of the colored race and which has done much to elevate the lower classes of that race.
Mr. Mitchell has spent two years in Edmonton as head of the Loyal Legion and has also directed the business end of the order, being head of the investment company through which the Legion invests its funds.
Before returning to Edmonton Mr. Mitchell will visit all the branches of the organization in the States.

PROHIBITION IN TEXAS.

That it Will Become State-Wide is Now Certain.

Austin, Texas, July 25.—Both the prohibitionists and the anti-prohibitionists were busy yesterday in the democratic primaries in Texas. The anti-prohibition organization nominated its candidate, O. B. Colquitt, for governor by probably 40,000 plurality and the prohibitionists, according to the count of votes so far made, carried the proposition of state-wide prohibition by large majority and nominated more than two-thirds of the members of the legislature, making state-wide prohibition a certainty, despite the governor-elect.
The proposition as voted upon yesterday is to make it obligatory on the part of the legislature to submit to a vote of the people a proposed constitutional amendment providing for state-wide prohibition. The state convention at Galveston on Aug. 10th must make this demand a part of the party's platform.

MULE TIES UP RAILROAD; HE STOPS FAST TRAINS.

"Algy" Had a Grudge Against Trains and Plants Himself on Right of Way.

Yonkers, N. Y.—Algy, the mule owned by Clarence A. Pearson, kicked the railroad schedules of the New York Central full of holes. He held up one train that carried 300 passengers, and then, to the full length of his "cusswords," he detained a fast freight that was carrying twenty carloads of supplies to the waiting west. Only when one full precinct force of Yonkers policemen began to work upon him he had him from the place he had selected for a rest. It is probable now the Central will get out an injunction compelling Pearson to remove the mule to another section of Yonkers.

In the wood yard of Pearson, alongside the railroad track, Algy had learned the train schedules. He knew every trainman by the accuracy of his aim as he threw loose coal at him, and in his muleish head held an animosity against the fireman of the Yonkers local and the man in the caboose of the fast freight that passed every Friday in front of the Pearson yard. With the aptitude of a precocious schoolboy, Algy managed to distinguish the various whistles sounded when the trains neared the wood yard.

We know people who seem to know everything except the fact that they don't know how much they don't know.

Sometimes a woman keeps on telling people how smart her husband is until she actually believes it.

7 MILLIONS FOR \$1000

Firm Offers Judgment for Seven Million Dollars for Sale at Low Price

MAY GROW BIGGER STILL

It is a Judgment Against an Ex-Convict and May Never Be Paid

New York, July 21.—Wall Street devotees of the God of Chance, whose orderly pursuits of their chosen calling have been sadly disturbed of late by the dull and contrary stock market, have found the silver lining of their cloud in this little advertisement which appeared in the financial newspapers on Monday.

"For Sale for \$1,000.—A judgment of the United States Circuit Court against E. L. Harper, of New York City, for nearly seven million dollars. W. H. Stange & Co., Cincinnati, Ohio."

Seldom, indeed, even in Wall Street, can one get after a little venture at such favoring odds as this—7,000 to 1—and it is not surprising therefore, that the stock market has been abandoned to its melancholy fate and lost haste made to learn the particulars of this new and capitalizing game. Curiously enough the trail leads back to the great speculative markets, for in his day, back in 1887, the E. L. Harper, of the little advertisement was the Edward L. Harper who tried unsuccessfully to corner the wheat market, but succeeded in an eminent degree in wrecking the Fidelity National Bank of Cincinnati, of which he was vice-president. Deposits and securities of that institution to the amount of some \$600,000 went into the waste speculation and never came out, really, for the depositors got but 8 cents for their dollars.

Ten Years' Term in Prison
Harper went to the Ohio Penitentiary for a ten-year term, and when he came out tried to go through bankruptcy, asserting that he had only \$20 of assets against liabilities of some \$75,000.

Receiver George C. Rankin, who had been placed in charge of the affairs of the defunct Fidelity Bank, opposed Harper's bankruptcy assertions successfully and kept up a running fire of court proceedings, lasting more than eighteen years, which finally resulted in a judgment for \$5,280,000 against Harper, which was affirmed by Judge Cox, and a jury in the United States Circuit Court in this city on January 14, 1906. The judgment was about all the receiver had to show for his labors, however, for Harper never paid it.

Coming to New York, the ex-bank officer got hold of the sixty-million-dollar United Steel Chain Company and reorganized it into the two-million-dollar Union Iron and Steel Company, with plants in this state, Colorado, Virginia, Alabama and Ohio. He even interested some rather substantial capitalists in his enterprise, including Edmund K. Stallo, of Cincinnati, son-in-law of Alexander McDonald of the Standard Oil group. The concern held on until the eve of the 1907 panic, when it went into a receiver's hands, to be sold later to Rogers, Brown & Co., who paid \$250,000 for \$300,000 of the bonds, and it is the \$50,000 judgment, with interest accretion, against him which Stange & Co., of Cincinnati are trying to dispose of at the modest price of \$1,000.

Mr. Stange explained at the time that he was not acting for Harper, but was simply making an investment. If he can sell out now at the 100 per cent advance, it won't have been so bad a venture and Wall Street will not scrutinize this profit too closely for when Stange & Co., paid \$25 for the judgment a year ago it was worth, face value only \$600,000; it has since advanced to nearly \$7,000,000, and there seems no good reason why in the process of time it should not be worth \$70,000,000, face value.

Harper was loth to discuss the proffered sale of the mammoth claim against him. He was seen last night in the hallway of 349 Central Park west, where he lives with his daughters in a fifteen-hundred-dollar apartment. "Why, I know nothing about it," he said, as though highly offended, "I have nothing to do with it. You must excuse me."

FRESH AIR CAMP.

The Bijou Theatre management have shown their appreciation by a donation of space towards the work of the Fresh Air Camp, with the promise of a further effort during the latter part of the year for the winter's work amongst the poor.

Archdeacon Grey has expressed his hearty sympathy with the movement, and, at a recent church-service he made mention of the good work going on.

At the camp, on Sunday last, there was held both Sunday school in the afternoon, and service at night, neighbours from adjoining farms gathering to the large tent. The service was greatly helped by the use of an organ kindly loaned to the camp for the season by Messrs Astley and Jones.

One gentleman of the city hearing of the good work accomplished, made a gift of a crate of peaches.

A pot packed full with eggs, and butter accompanying, was brought in to the camp for the use of Mrs. Burnett and biscuits from Aiken Bros. have come along with much acceptance. Gifts of \$3 and \$4 are gratefully acknowledged from Mrs. J. K. Ross and Miss Edmunds. There is need for much more.

The second party leaves on Thursday 28th inst. at 2 o'clock from the Aids offices, and it is hoped the same kindness extended to the first party on the 14th inst. will be shown to the second party. The management feel indebted to the gentlemen who placed their automobiles at the disposal of the poor women and children on that occasion. Already some have signified their willingness to again take this further contingent out to the camp. To some a ride in an automobile will be an experience of a lifetime.

CALEDONIAN SOCIETY SUMMER DANCES.

The Caledonian Society will hold a summer dance in the Seagate School Hall (this Thursday) evening 28th inst., at 8.30 p.m., and judging from the talk among the Scotch folk, it is going to be an undoubted success, a large gathering is assured and all arrangements have been completed to make the evening a thoroughly enjoyable one.

The purveying is being taken care of by a few of the ladies, who are providing cool refreshments in addition to the usual good things at a Caledonian dance.

Sloan's Orchestra will again be in attendance and those who have had the pleasure of dancing to their music know how much enjoyment is to be derived therefrom.

The only thing needed to complete the enjoyment for all is a nice cool evening and at the present time the chances look good.

ST. GEORGE'S PICNIC ON SATURDAY.

With the assistance of fine weather Saturday next should prove a day to be remembered in the annals of St. George's Society in Edmonton, for according to the resolution passed at last night's meeting, the members will give a gigantic picnic to their many lady and juvenile friends on the Great Estate, providing the necessary permit may be obtained. Mr. F. P. Hobson was elected chairman of the committee, and under his careful guidance everything possible will be done to ensure a successful day's work. The cricket for both ladies and gentlemen, with a serious match in which the lady will play a return match with St. George's, running races and other athletic sports, plenty of music and an evening concert are amongst the amusements promised, whilst refreshments will be served during the afternoon and evening in addition to a "basket" auction presided over by the ladies, the proceeds of which will be devoted to charity. Tests will, of course, be erected, and everything arranged in the best possible manner.

WILD AND WOOLY WEST.

A really typical wild and woolly west scene took place on Howard avenue this morning in front of the Capital office when a moving picture camera had a number of people, where people live to be quite old. Finding an aged man sitting on the front porch and weeping bitterly, the enumerators inquired the trouble, whereupon the man, between sobs, exclaimed:

"How old did I die?"
"How old are you?" asked Conklin.
"Eighty-nine," was the reply.

RESULTS IN LAW EXAMS.

MRS. HOLLIBAY, Box No. 88, Wexford, Ont., writes: "I must say that we have used Dr. Fowler's Extract of Wild Strawberry for over seven years, and have found nothing to equal it for all Summer Complaints, Diarrhoea, Dysentery, etc. Our house is never without a bottle of the Extract and I can recommend it to be kept in every home, especially where there are children."

NOTICE—We wish to warn the public against being imposed on by unscrupulous dealers who substitute the so-called "Strawberry Compounds" for Dr. Fowler's.
If you want to be on the safe side ask for Dr. Fowler's Extract of Wild Strawberry, and insist on getting what you ask for.
The original is manufactured only by Thos. R. Millers, Ltd., Toronto, Ont. Price 30 cents.

Mrs. Harry Galloway, Cardston, Ont., writes: "Our baby, who so very bad with Diarrhoea that it seemed her bowels were fairly raw. We tried everything we thought would help her but failed. A neighbor advised trying Dr. Fowler's Extract of Wild Strawberry. We tried it and before the end of a week our baby was as well as ever. We always keep Dr. Fowler's in our home."

Millerton, N.Y.—Census Enumerator Conklin of this place reports a curious incident on Silver mountain, where people live to be quite old. Finding an aged man sitting on the front porch and weeping bitterly, the enumerators inquired the trouble, whereupon the man, between sobs, exclaimed:

"How old did I die?"
"How old are you?" asked Conklin.
"Eighty-nine," was the reply.

"Where is your father?"

"He's behind the house splitting wood."
Conklin found the old man engaged at the wood pile, and among other questions asked him why he had split his son.
"Why, the little cuss was throwing stones at his grandson," the wood chopper answered. Conklin then inquired "Where is his grandfather?"
The man said, as he resumed his attack on the wood pile, "Oh, he's out on the head and has come in to have his mother put on some sticking plaster."

CALLIES WON
FROM THE HIBS

Score Was 2-0, By Last Night
Callies and St. George's
Tied "A" Honours

With a Kansas cyclone blowing and in their eyes, and the wind performing queer antics with the ball, the Callies' last night defeated the Hibernians by a score of 2-0. By last night's win the Callies placed themselves level with St. George's, for the honors in Division A. A play-off between the winners or a probable sudden death game between those team and the Callies B, who carried off the title in Division B, will decide the football championship.

The game last night was a poor one in many respects, the only noticeable characteristic that could be commended being the doggedness with which both teams displayed. The crowd was very slim, the inclement weather of course being responsible for the thinning down of the usual number of the crowd of spectators.

In the first half up to about ten minutes of the whole the Hibernians played on the defensive, but they made a rally and the Scotmen's goal suffered some heavy bombardment. Combinations of course was out of the question and the members of both aggregations contented with just kicking the ball around, as long as they kicked it at least an atom towards the opposing team's territory. To show the influence of the wind it can be shown that when a goal tend would make a penalty kick the ball would waver to the touch line, no withstanding the fact that it was directed to head field. There was very little head work and an equal absence of high kicking. The players being afraid no doubt that if the ball went very high in the air it would say up there. Sam Short of the Y.M.C.A. officiated as referee in an impartial manner.

The teams and officials were: Callies—Goal, P. Tod; full-backs, Tweedale, McKenney; halves, Blisland, Davis, J. Christie; Johnston; forwards, Christie, Wright, A. Tod, Chapman, Davis.

Hibernians—Goal, Armstrong; full-backs, Raynor, Lynn; half-backs, Speckman, O'Neill, Bate; forwards, Hudson, Tyler, Walker, McCartney, Hudson.

Referee—Sam Short, Y.M.C.A.

Y.M.C.A. BEAT THE
WHOLESALE

In Spite of the Wintery Weather,
Both Teams Played Good
Ball, Score Was 5-2

The eleven long-haired citizens who saved everything from a pleurisy to a pneumonia's knee for the privilege of sitting out seven innings on Fresh Deal Gray's soft planks, say the Y.M.C.A. win a good game from the Wholesale by 5 to 2.

In spite of the North Pole atmosphere that pervaded the scene, Knott and Crabbe pitched well and had something on the batters all the time. Both teams could only total ten hits of which Crabs and McDermott got a brace apiece. Parney, Tripp and Knott had two baggers.

Both teams played snappy ball in the field, two double plays by the Y.M.C.A. being the features.

The Y.M.C.A. got away in the first with three runs. Sacrifices by Waugh, Parney, McDermott and Knott, along with a charity to Gorman and a misplay by Crabs produced the tallies.

The Wholesale's got one in the second on a two-bagger by Crabs and an error by McDermott.

In the third, Parney's double followed by a single by McDermott and another. Again in the fourth, Jones, Y.M.C.A. sent a center over to the Goodyear. Tripp doubled and scored on Oliver's wild peg.

The last run of the game was scored in the sixth by the Wholesale. Foster walked, Crabs followed with a single and a wild pitch let in the center.

On Friday Norwood play, and the fans should turn out and help the City League along. The boys are playing good ball and all the games are worthy of patronage.

A BARNSTORMING TOUR
Western Canada Players Will Play
Games on the Road to Their
Home Towns.

The players of the Western Canada league who have their home towns at points east of Alberta will hasten their way home at the end of the season.

A number of games have already been arranged with teams in the west, and the players expect to pick up a little change, over and above expenses.

The team will be made up of players from almost every team in the league, and Edmonton will have three or four representatives. Heinrich, Delhar and Drechko will pitch, and Lynch will be behind the bat. Morse, Brennan, Smith and Kellachy will probably play the infield, while a strong outfield is being selected.

The team's itinerary will be made public later.

OH, YOU JOHNSON

New York, July 28.—A new scheme has been devised to separate John Arthur Johnson, candidate for alderman of Chicago, and in some circles better known as Jack Johnson, heavyweight champion of the world, from his lair. Whether the method is efficacious remains for the Chicago courts to determine.

For "Mr. Johnson," a Caucasian now staying at the Hotel Albany, is preparing to enter suit for divorce and \$50,000 heart claim against the champion. The woman, who says she was formerly Hattie McCoy of Philadelphia, is having her bond bill paid and caught championed by George Little, Johnson's former manager.

The woman, in support of her claim that Johnson is her lawfully wedded mother, tonight showed a rare collection of photos of the "big sucker" letters and telegrams. Unfortunately, she did not produce the wedding certificate, which says Johnson cruelly carried off when he deserted her.

The woman declares she met Johnson in August, 1907, in Philadelphia, and went with him to Atlantic City, where they were married on September 28th. She said she lived with Johnson until December 30, 1909, and saw all his fights, including the battle with Burns. Then he deserted her, she avows.

As a further proof of her love, she says she "hung up" the family jewels and plate to send Johnson abroad, when he was "broke."

Johnson, seen at Hammerstein's theatre, declared it was just another effort on Little's part to injure him. He denied that the woman was his wife.

The McCray "wife" is not the white wife who was with Johnson in Reno and who is still with the dusky champion.

SPARKLETS

Missoula, Mont., has made application for a franchise in the North Western League for the season of 1912.

Pearl Creizan, with Winnipeg last season is the leading finger of the Minny League. He has pitched and won eight games.

Manager Lynch of Lethbridge, has released Clair Head, the Miner's third baseman. Regina has offered Head a job, but he will probably go to the coast.

Clarke, of the Vancouver pitching staff, may be seen in a Lethbridge uniform before many moons. Lynch has not a pitcher on his staff at present who shows any class. Even old reliable Phil Lezie has turned erratic.

ERNIE JOHNSON ARRESTED.

Crack Hockey Player of the Wanderers Gets Mixed up in Assault Case

Montreal, July 26.—It was announced at the headquarters of the Grand Trunk last night that Ernie Johnson, a member of the Wanderers' hockey team, world's champion, and holder of the Stanley cup, had been arrested last evening in Brockville charged with assault. Johnson has been for some years in the employ of the Grand Trunk, first as brakeman and more recently as freight conductor. His run was between here and Brockville. No details as to the cause of his arrest were given out. It is presumed it followed some mix-up with some member of the crew running one of the company's trains. Johnson has been a member of four world's champion teams and proved last winter to be probably the fastest defence player that ever put on skates.

JACK IS EAGER
FOR AUTO FAME

Champion Pugilist Wishes to Enter
Race for Vanderbilt Cup,
Wants to Speed Without Fine

Now that Jack Arthur Johnson has fought his way to the heavyweight championship of the world, he has other ambitions. He wishes to gratify his speed mania on the track and road and wear medals upon his brawny chest for winning automobile races.

He wants to pluck the laurels from the brows of such famous drivers as Geo. Robertson, Louis Chevrolet, Harry Grant, Joe Dawson, Bob Burman, Lewis Strang, Barney Oldfield, Ralph de Palma, and Ray Harroun. Jack states that he has already driven his car over the Vanderbilt course several times and believes he can cover the route in faster time than was made last year. With the Jeffries fight behind him, he now feels justified in taking the chances the sport entails, and with his strength and cool judgment, believes that he can give the best of them the race of their lives. He wishes to enter the new Vanderbilt to be held on October 1.

"I have made up my mind fully to drive in the Vanderbilt cup race," Johnson said recently. "For a long time I have been anxious to compete with some of the best drivers of the world, and I believe this race will afford me the opportunity. I know I will be taking chances, but as there is no one in the fight game who is my equal at present, I might as well do something equally exciting. My car is fast, and I know I will not be afraid to take any of the turns on the Vanderbilt course at top speed."

"I will have plenty of opportunities to practice on different courses during my theatrical tour, and take it from me, Jack Johnson will show some of those speed mania a few things about the racing game."

He said that Jack had been offered \$10,000 to drive in one race on each day of the Labor Day meet on the Indianapolis Speedway. He is anxious to accept if his other plans can be arranged to fit the occasion.

Jack wants a chance to let "er out a little where the unsympathetic minions of the law cannot interfere and prize the place of fines and court costs.

He believes he can make the ghost of the Flying Dutchman utter hollow groans of envy and cause Fame to suffer from writer's cramp trying to keep her ledger up to date in the section under letter J.

GOTCH A MAGNATE

Humboldt, Ia., July 28.—Frank Gotch, champion heavyweight wrestler of the world, broke into the wrestling game today by purchasing the Lake City team, a member of a brush league in this part of the state. The team will be transferred to Humboldt, the wrestler's home on August 1. It has been known for some time that Gotch has wanted to become a baseball magnate having attempted to purchase the Des Moines team in the Western league.

Abe Attell and Eddie Merino will fight 15 rounds in East Calgary on August 22.

Lethbridge Will Probably Have to Send Back Zimmerman to Saskatoon, Notice Last Paragraph

Lethbridge, July 28.—Zimmerman has to go back from whence he came. He was acquired by Joe Lynch for the Lethbridge club through the failure of the Hat having him sign a contract this year. It is said Zimmerman claims to be free thereby, but a player cannot be in organized company without being under contract according to the rules. The club that plays a man without a contract is liable to have all the games that such a player participates in forfeited, and have a fine attached also.

Zimmerman says he signed a contract last year with the Hat but none this year. Last year's contract held him until he had taken part in three games this year, but no longer.

Billy Hulien, of Medicine Hat, says that Zimmerman signed a contract this season but it has been voided, which makes the late Medicine Hat liable nevertheless, but as that club is defunct it would be useless for the league to push a penalty in that direction and it would be unfair to expect Saskatoon to assume the responsibility. As far as penalties are concerned they probably will be dropped but Zimmerman may be awarded to Saskatoon, which city took over the Medicine Hat franchise with the understanding that all players accompany it.

The case is being investigated by the president of the league, C. J. Eckstrom, and until sufficient information has been gathered to make a decision Zimmerman will continue to play with Lethbridge unhampered.

RECALL CALGARY STARS

Bob Brown, of Vancouver Will Use Clynes, Standridge and Smith

Vancouver, July 28.—Bob Brown expects to pull several of his former players back into the Vancouver team before the close of the present season. Standridge, the fast young pitcher, and Clynes, and Smith are three of the Calgary club who will be wearing the Vancouver uniform before the pennant race is settled this year. Clynes is leading the Twilight League with the stick.

"Battling Jim" Johnson Passes Himself off as Jack Johnson and Lands in Court at Brussels

Brussels, July 28.—Boxing circles here are highly indignant over the discovery that a negro who has been passing himself off as Jack Johnson is really "Battling Jim" Johnson. His managers were obliged to flee from incontinent Belgians. Johnson was hauled before a magistrate to explain his deception. He candidly stated: "I am Johnson. I am a negro. It was all the fault of my managers."

Mike Lynch, deposed as captain of the Seattle team, has signed a contract to play centre for Tacoma. Hartman has been released.

BIG MAJORITIES FOR ALL BYLAWS

Strathcona Ratepayers Passed Everyone of the Ten By-laws Submitted

Bylaws	Total	Maj.
For Ag. For		
Bridge	231	12 219
Water and Sewers	233	17 206
Meter, etc.	226	16 210
E. Light Extension	222	10 212
Street Grading	230	13 217
Park Improvement	225	18 207

Sidewalks, Boulevards, Paving	226	13 213
Concrete Sidewalks	224	17 207
Wood Walks	227	13 214

With a very light vote polled yesterday the Strathcona money by-laws were passed by large majorities and not even in any one ward, of which there were four, was there a majority against any bylaw. The largest number of votes against a by-law were polled in the park improvement law, in which there were eighteen votes against.

The largest of the by-laws was that providing \$48,000 for water and sewer extensions, while great interest was displayed in the \$38,000 towards the Mill creek bridge. Everything is in readiness for the construction of this bridge as the letting of the contract was only being delayed until the by-law had been passed by the people.

It has been recognized by the citizens that the expenditure of money on improvements is necessary to the development of the city and they have responded willingly. \$119,061.51 was voted yesterday.

EAST END STABLES BURN LAST NIGHT

Fire Threatened Potter and McDougall's Stables But Department Soon Controlled It

A fire which threatened to be an exceedingly serious one broke out shortly before 8 o'clock last evening in the upper part of Potter & McDougall's stables on Queen's avenue. Apparently the fire started in the harness room directly above the office, and a number of men who were seated around the stove in the office were the first to notice the smoke sifting down through the cracks between the boards.

The alarm was at once turned in and the twenty-eight horses in the stables taken to a place of safety. The chemical from No. 1 was the first to arrive closely followed by that of Number 3, while the men from No. 2 responding to a special call were not far behind and soon six streams of water were pouring into the burning building.

Twenty Tons of Hay in Loft
The work was rendered very difficult owing to the fact that the loft in which the fire broke out contained nearly twenty tons of hay, but under the direction of Chief Davidson the flames were got under control and very little damage was done, the whole being fully covered by insurance.

"\$1000 will cover the loss I think," said Mr. A. E. Potter, "There were twenty tons of hay, and a large stock of robes and harness in the loft."

It is impossible to tell how the fire started although it is supposed that the stove pipe passing through the harness room from the office may have been responsible for the conflagration.

WANT TROOPS FIRST

No Cars in Columbus Till Order is Kept Among Strikers.

Columbus, Ohio, July 28.—Not a single street car has been running in Columbus since midnight and to-day thousands were compelled to either walk or ride in any sort of vehicle to get to their places of business. The cars will not be started until 2,000 troops of the National Guard arrive to-day to enforce order in the strike of the street car men.

CANADA WILL SEND ENVOY TO S. AFRICA

Will Be Present at Opening of First Parliament of New Union

Ottawa, July 27.—One of the Canadian cabinet ministers will be present at the opening of the first parliament of United South Africa. It is probable that a Canadian envoy will not be named until Sir Wilfrid Laurier returns to Ottawa.

Capt. George O'Farrell, who was engaged in surveying on the Transcontinental Railway about a hundred miles west of Lacombe, is dead of appendicitis. He was forty-six years of age.

Hon. Wm. Pugsley left today for Campbellton, N. B., where he will meet the relief committee. It is expected that arrangements will be made to reconstruct at once the government buildings and wharf. No federal grant for the sufferers will be made.

Sir Frederick Borden stated today that he would not make public Sir John French's report on the Canadian militia until Sir Wilfrid Laurier's return. He indicated that the report was favorable. There was nothing in it to which he could take exception as it was based upon the country's preparedness for war and without reference to the history of the country and other prevailing conditions. "But even generally," he said, "sometimes differ."

FREIGHT MOVING

Grand Trunk Officials Claim They Sent Out 126 Trains

Montreal, July 27.—Grand Trunk officials state that 126 freight trains were sent out yesterday, consisting of 2,586 cars. They claim to be making good progress in moving traffic. Messrs. Lee and Garrison, heads of the brotherhoods involved, are here today holding consultations. There is no other feature of interest today except news that the engineers' agreement runs out the 1st of August. They insist upon the company granting the Canadian Pacific schedule, which means an increase of fifteen per cent on the present wages. This may lead to a farther tie-up.

PREMIER LAURIER AT PRINCE ALBERT

Sir Wilfrid Made Great Speech—Compared British and U. S. Governments

Melfort, Sask., July 27.—Sir Wilfrid Laurier made a great speech to the citizens of Prince Albert to-day.

"When I came to the most northerly portion of the American continent and see immense crowds of British people," he said, "I ask myself how it is that the great and mighty fabric of the British Empire, which extends over the whole civilized world, can be maintained, and in my humble judgment the foundation upon which it can be maintained is the principle of autonomy, which is the extending of the British constitution to the component parts of the Empire."

"The British constitution," continued Sir Wilfrid, "certainly is the most perfect instrument of government which has ever been devised by man for the government of men. It is not perfect—nothing is perfect in this world—but it is perfectable. It keeps time with the progress of the age."

Extols British Constitution
Comparing the British with the American constitutions the Premier said the British constitution was the more democratic, and it was more elastic and better adapted to the requirements of that people.

"It is creating new nations," he said, "which in time of danger will sustain the Motherland. Should ever danger arise, Canada, Australia, and New Zealand are free as 'rept nations, and are more than that, South Africa holds a similar position under the British flag."

"I regard the confederation of the states in South Africa as one of the brightest phases of British history. Whereas there was war between the countries ten years ago, to-day South Africa is a new star in the crown of Great Britain. No nation in the world could have done what England has done in South Africa. She has proved once more that she is at the head of civilization, and in the cause of justice and liberty and freedom she will always stand in the forefront and take all chances."

Referring to the loyalty of the colonies, he said: "Do you think it would be at all possible to maintain the British constitution in

Canada, Australia, South Africa or New Zealand, were it not for the fact that every British subject is allowed to govern himself according to the dictates of his own conscience?"

"I can say for myself that I am proud of the example of the liberty of the policy of the British constitution, because, though I am not English of blood I have been chosen by men of English blood as the leader of the Liberal party, which acknowledges no difference of race, or creed. Under the folds of the flag there is room for men of all creeds and of all origins. We ask only one thing, and that is that every man shall be a loyal subject of the King."

On the subject of the navy, Sir Wilfrid remarked, "The best policy is for the sister nations to have their own navies, so that in case of an emergency, if England were ever in danger, which God forbid, from all parts of the world would come fleets to help and assist her in her day of danger."

VICTORY WAS DECISIVE

Massachusetts Beat the St. Lawrence Easily in Second Place

Manchester, Mass., July 28.—So decisive was the victory of the defender Massachusetts over the challenger St. Lawrence in the second race yesterday for the Seawanhaka Cup that several of the Canadians have already made arrangements to go home after to-day's race.

There was a difference of eight minutes and twenty-eight seconds between the boats at the finish and the Massachusetts could easily have made it an even nine minutes.

DYNAMITED MAN LYING IN HAMMOCK

Virginia Town Has Outrage That
Aroused the Whole
Countryside

Ridgeway, Va., July 28.—While returning from his farm to the town a week ago some unknown person hurled an explosive at Mr. Bousman Ashe, mayor of this town, who was riding past his son's woods. He told his friends of the occurrence, but they treated the matter as a joke until Sunday, when he was dynamited as he was lying in a hammock at his home.

A special meeting of the town council offered a reward for the capture of the murderer. The governor of the state and the authorities of Henry county will be asked to duplicate the amount. Friends of Bousman may offer personal rewards.

To the rear of the Bousman yard in a little jungle of bushes and weeds were discovered two sticks and two half sticks of dynamite.

One of the half sticks was loaded and capped, the fuse being wrapped on with coarse cotton cord. The fuse was about two feet long, which would make four minutes' burning before an explosion.

While the mayor was lying on the grass last night smoking a cigar the assassin crept upon his fence and, doubtless found the mayor by the light of his cigar. The mayor said before dying he heard no noise until the explosion.

FASHION'S 400 GOT VERY ANGRY

Tradesman Used Novel Method
In Fighting Objectionable
Millionaires

New York, July 28.—The fashionable ocean resort of Sea Bright, N. J., which boasts millionaires' gates and exclusives beyond number, is beginning to have high hopes that a certain blight which has been upon it all summer is to be removed.

The blight is a ten foot "spite fence" around an ice cream bungalow situated at Rumson road and the Shrewsbury River, a point which all the rich cottagers have to pass in their motors several times a day. On the fence, in huge type, the owner, James M. Allger, has painted denunciations of the wealthy and has even called some of them by name.

He declares that he has been boycotted because he is neither rich nor exclusive, but is merely a tradesman. Therefore the most prominent sentence on his fence reads: "The poor who steal go to prison, while the rich go to EUROPE!"

Fence Also Preaches Socialism
Another bit of Allger philosophy, which like the above has been starting the cottagers in the face all summer is: "The time has now come when all poor men should be socialists."

Sea Bright's hopes that the eyesore may soon be removed are based upon the fact that Allger was taken before Justice Van Nest today and was fined \$10 for "displaying billboard advertisements without a license." He was warned that he might be arrested every day and fined the same amount as long as he kept the offensive words upon his big barricade.

Besides, next Thursday, he must stand trial for libel, suits having been brought by five men, whose names he displays on his fence—Charles D. Halsey, a millionaire New York broker; P. Hall Packer, former mayor of Sea Bright; Frank McLaughlin, former mayor of Rumson, the adjoining settlement; and John McPeak, William Porter and James Wallace, the latter three being policemen.

Motto in Behalf of the Poor
At the top of the fence, which is painted black, the motto stands out in huge white letters: "The poor need an opportunity and not charity."

Some time ago a number of wealthy women of the neighborhood had raised funds for the new Church of St. George-by-the-Riverside and it was about to be dedicated. This was one town function; another on the same day was a social affair at the Rumson Country Club, among whose members are such well-known folk as Mr. and Mrs. H. H. Rogers, Jr., Mr. and Mrs. H. M. Alexander, Colonel and Mrs. John J. McCook, Kingdon Gould, George Emien Roosevelt, E. A. S. Clark and Ogden Mills Reid.

While church fashionables and club fashionables were motorizing to their function Allger was preparing a surprise for them. They got it as their motors crossed the draw bridge from Sea Bright to Rumson. It was a clothes line from which fluttered a dozen or so sets of feminine lingerie. Every motor had to pass directly beneath the line.

Women's Names on Lingerie
To the horrified gaze of the women as they drew near was revealed a tag on each bit of lingerie. Each tag bore

the name of some fashionable. While the women crimsoned and the men tried to keep from choking—either from anger or some other emotion—chauffeurs were ordered to put on full speed ahead.

In the center of the line of feminine garments was one huge pair of masculine red flannels. Attached to each leg was a placard. One read, "Mayor Packer;" the other "Mayor McLaughlin."

The two mayors got the three policemen, McPeak, Porter and Wallace, to raid the Allger bungalow and take down what the vulgar villagers were calling the "society wash."

Allger, in retaliation, had all hands arrested on a charge of illegal entry, but the Rumson county grand jury refused to do anything but quash the case.

DISPOSED OF MUCH ROUTINE

Board of Commissioners Went
Through a Lot of Routine
Business Yesterday

The tenders for the supplying of 30,000 tons of coal to the city during the year beginning August 1st, were to have been opened at yesterday afternoon's meeting of the City Commissioners but owing to the fact that one of the three tenderers failed to give sufficient information asked for as to the calorific value of the coal,

the tenders were laid over until today so that the necessary information could be supplied.

The Ottawa Car Company agreed with the city's decision in having the electric cars changed to the single-end system.

It was decided to recommend to the council the granting of the request of the Globe Lumber Company for the right to lease lots numbers 9 and 10 on the west side of Nampayo, just south of the C.T.P. track, for five years at a rental of \$13 a month, plus all taxes.

The insurance on he exhibition grounds was discussed, but it was decided to take the matter up with Manager Harrison. The insurance amounts to \$580.75.

The council of the village of West Edmonton, which has just recently been incorporated, applied to the city for a water supply.

The city solicitor will see what steps are necessary in order to extend the system outside the limits.

Superintendent Grisham had a conference with Superintendent Griffiths of the telephone department in connection with the requested extension of electric light and telephone systems to Trefleway Street. They reported to the commissioners that they did not think the expenditure would be justified.

Alex. Potter, C.E., New York, telegraphed the city engineer requesting payment of part of his bill which amounts to \$600. The payment was

authorized.

The claim of York and McNamara for damages owing to the depreciation in the value of their property owing to its proximity to the incinerator, was filed. The city solicitor stated that the claim had no foundation.

GOOD PRICES IN ONTARIO

Some Interesting Comparisons Made by the Toronto Weekly Sun

The Toronto Weekly Sun says:

That considerable parts of the Canadian West have suffered a total crop loss is beyond question; that in practically all parts of the Western Provinces crops will be much below the normal is equally certain. In the Northwestern and Western States similar conditions prevail. The Dakotas and Minnesota seem to have suffered quite as severely as the southern parts of Manitoba, Saskatchewan and Alberta, while all the Western States have sustained more or less damage from unfavorable weather. In Ontario, on the other hand, the season's harvest promises to be fully up to, if not beyond the average. Besides this the finished products into which Ontario grain and fodder are mostly transformed—hogs, cattle, sheep, dairy produce and eggs—are commanding exceptionally high prices, or are being turned out in larger volume than a year ago. While prices have varied somewhat from week to week, quotations for hogs, cattle and sheep have for some weeks past been about a dollar a hundredweight higher than at this time in 1909. Eggs and butter have been running about even with twelve months since. Cheese generally has been lower, but production has been greater. Lumping everything together, we are justified in stating that, barring a general collapse, the money returns from Ontario farms for the whole of 1910 will exceed those of 1909.

How does there seem to be any sufficient cause for fearing a general depression? It is true the limitation of the purchasing power of the Canadian and American West, due to the injury to crops, will be felt beyond the borders of the territories affected. As against the reduction in purchasing power there, however, we have the promise of greater purchasing power in Europe as a result of the good harvest looked for in that quarter. Australia is enjoying the prosperity, following upon an excellent grain yield last Christmas and a large dairy output in the season just closing. India is also prosperous, and the gold mines of the Rand have recently been making new records in production. When the whole field is surveyed, therefore, while there will be something like distress in some sections, the general situation is such as to warrant the expectation of continued commercial activity and profitable prices.

It is true people in cities have of late shown a disposition to live extravagantly and there has been a good deal of foolish speculation. If anything like a general crop failure occurred, a serious depression would be unavoidable under these conditions; but there is no general failure. Far from it. The one serious and immediate cause for fear lies in the Grand Trunk Railway strike and the possibility of an extension of the trouble to other systems. If this conflict is prolonged it will be a real calamity. Aside from this the general outlook is satisfactory and nowhere is it brighter than here in Ontario.

Contractors, Attention!

Our new electric floor surfacer smooths, sandpapers and polishes hard wood and soft wood floors, and does as much as six good men. It's still better on Terraza floors. If you want to repolish an old floor try it with the brushes that go with it and see the wonderful results. Moderate rental per day.

It Is Important to the Merchant that He Should Be a Good Advertiser---

But it is also very important to His Patrons That He Should Be!

THE BUYING PUBLIC has a distinct interest in whether or not a merchant advertises. For it is an economic truth that only the merchant who advertises can afford to offer actual values--to make price-concessions that are really competitive--to do business on the smallest possible per-sale profit.

The buying public has come to know this--to know that the buyer has a direct interest in the question of whether the seller advertises. The buying public has come to know that the buyer pays the penalty of patronizing the non-progressive store, where small volume of sales makes large per-sale profits inevitable.

It has come, therefore, to be a matter of personal interest to a prospective buyer as to whether he or she is dealing with a progressive or with a non-progressive merchant. This personal interest is a purse-interest and therefore comes nearer home than the mere matter of pride in preferring to buy at a LIVE STORE.

Although that sort of pride, somewhat generally held by the people of a city, is what makes the town worth living in---worth doing business in---worth believing in!

WANTED—TO BUY WANTED—OLD COUNTRY FURNITURE, china, Sheffieldware or silver. Address M. F. H., Box A, Daily Capital.

MODERN LIFE WOULD BE TOO HARD ON THE NERVES IF IT WERE NOT FOR WANT ADVERTISING!

The pace of life has become tense.

Worries, disappointments, up-sets at home and office, losses, discouragements seem to multiply as daily life becomes more complex.

The property owner, who MUST have a steady income from rents or lose his property, is "racked" by the untimely defection of a tenant. Some classified advertising quickly retrieves his loss—and quiets his nerves!

The salary earner unexpectedly loses his position—and his peace of mind. The strain would shortly "break" something in his nervous system if, once more, want advertising did not find the better job—and restore to him his mental equilibrium.

In every phase of the city's life, every day, the want ads play the part of the peace-maker. They SERVE you and me at some crisis in our lives—and keep the modern pace and tension from proving too fast and tight for us.

Truly, the want ads ARE FOR SERVICE!

At Cayley prospects are fair and farmers commenced cutting wheat about July 22nd.

At Cowley the expected yield is 17 1/2 bushels, 20,000; 30, barley, 25; flax, 10; hay, 1/2 tons.

At Kipp, Brockett and Burdett the crops are practically a failure.

DIPHTHERIA CASE IN POLICE CELLS

One Prisoner Infected But No Danger of It Spreading Now

A man named John White, who was last week sentenced to fifteen days for ill-treating his wife, has been removed from the station to the Isolation Hospital owing to the development of diphtheria. On Tuesday evening the man complained of a sore throat and Dr. Whitehead, medical health officer was called in. The man's case was diagnosed and yesterday it was announced that he was suffering from diphtheria. The cell in which he was confined was immediately fumigated and the other three or four prisoners were transferred to another division of the building. The case is a mild one and a spread of the disease is very unlikely.

It is not known where White contracted the disease. In most cases diphtheria develops in two or three days, while White was in the station for at least five days. Cases have been known, however, in which the patient did not show symptoms for that period.

RATHER PREVIOUS.

Mayor Lyons of Mobile said in a recent interview:

"No, I cannot pronounce judgement on this occasion yet. Do you take me for Judge Taliaferro?"

"Judge Taliaferro," the Mayor explained with a smile, "was holding court back before the war in the little court house of Citronelle. It was a very cloudy spring afternoon and a very difficult and puzzling case was on. The lawyers wrangled, quoted from great law books and broke into grand flights of eloquence. While Judge Taliaferro listened solemnly or gazed out of the window at the approaching storm."

"It grew darker. The judge snatched a piece of paper and wrote a word or two upon it and placing it beneath a paper-weight took up his hat."

"Colonel," he said briskly to the lawyer who had the floor, "excuse me for interrupting you, sah; and I want that you should go right on with your argument, for it's a damned good one. But it's ash good to rain this evening, Colonel, and I just snatched that up to my sweet potatoes right away. But you go right on, Colonel, and Majah, you follow him up; and when you two gentlemen get through you'll find my decision under this heap weight."

"And the judge disappeared through the door behind the lawyers had time to exchange one astonished glance."—Detroit Free Press.

FAST TIME BY MEAT TRAIN

Edmonton Special Train Reached Vancouver in Three Days.

The transportation companies appear to be doing everything possible to assist in the development of the chilled meat trade from Edmonton, by providing fast freight facilities for handling this business.

J. Y. Griffiths and Co. report that their last special train of frozen beef which left Edmonton on the morning of July 13th, en route for Dawson City, arrived in Vancouver in fine condition on the morning of the 26th, and was unloaded, on to the steamer the same day.

This special Griffin train consisted of ten cars from their Edmonton packing plant, and was augmented at Calgary by three cars from the Winnipeg plant, and one car picked up at Calgary.

As an indication of the dimensions to which the meat industry at Edmonton may eventually attain, it might be mentioned that the Griffin plant alone are now shipping every week about a similar train load of their products. This output could be very greatly increased if the farmers would increase their output of hogs and cattle.

As the country surrounding Edmonton is the finest mixed farming district on the continent, the market is practically unlimited, and high prices likely to prevail for at least some years to come, there should be very rapid expansion in the meat industry at Edmonton.

G. T. STRIKERS OFFER PEACE

Officers of Striking Union Want to Go Back to Work Now

HAYS NOT KEEN FOR THEM

Says He Doesn't See Way Clear to Take Men Back on their Former Jobs

Toronto, July 2.—The visit of W. G. Lee, President of the Brotherhood Railway Trainmen, and A. B. Carleton, of the Order of Railway Conductors, seems to have changed the entire situation regarding the strike. Persistent rumors of an approaching settlement are in circulation. The fact that both these leaders visited Toronto and discussed the situation with the leaders here, then attended a secret session of the strikers, and afterwards went to Montreal to consult with Vice-President Murdoch is regarded as significant.

Expect Settlement.

It is generally agreed here that despite all the reports to the contrary, there will be a conference with President Charles M. Hays and a settlement of some kind will be reached. When the strike was declared it was supposed that the local leaders were strong enough to carry the fight to a successful end and there was no intention of calling upon the leaders in the United States because of the feeling in Canada that they should not interfere in Canadian affairs.

The progress made since the strike was declared has been anything but satisfactory, and it is understood that the men themselves demand the presence of the heads of the order. It was intimated today that if the train men did not reach a settlement, one would certainly be made for the conductors, who are the greatest losers by the light. The conductors are in the minority and when the strike vote was taken the trainmen outvoted the older men, though having very little at stake except the satisfaction of a fight.

Offer To Go Back

Montreal, July 27.—To-night the Grand Trunk gave out a statement to the effect that President Lee and Carleton had offered to send the striking conductors, trainmen and yardmen back to work on the terms offered by President Hays when the strike was declared. The statement reads:

"A conference was held this afternoon between Lee and Carleton of the striking union and President Hays and Vice-president Fitzgibbon of the G.T.P. The representatives of the men stated that the striking employees would be all sent back to work if they should be taken back just as they were before the strike started to their old positions, and if the pay was given which was offered by the Grand Trunk when it accepted the report of the board of conciliation."

"It was proposed that then the question of when the new rates should go into effect and other matters should be arbitrated."

"The answer of the Grand Trunk to this was that, not such a thing. It was stated that there was no feeling on the part of the management against their former employees, but they could not guarantee them their old positions or the other conditions demanded. The union officials were told that if the men wished to go back to work, all who had not been guilty of misbehavior since the strike started would be given employment as fast as places were opened for them."

What Union Men Say.

Montreal, July 27.—President Carleton of the Order of Railway Conductors, and Lee of the Brotherhood of Trainmen came to Montreal today and called upon President Hays of the Grand Trunk with a view of settling the strike.

"We met Mr. Hays," said Mr. Carleton, "and laid before him that a friendly settlement was possible, if honorable means. We were favorable thereto, but if there was no such possibility, we would fight to a finish. Present Hays reply was not direct except to say that he did not see how anything could be done at this stage. If he had anything further to say, he would let them know by wiring them to Toronto on Thursday."

In explanation of his visit President Carleton said: "We made no suggestions to any great extent as to the means of settlement. We made it apparent that our mission was friendly because we took into consideration the hardships placed on the public who were dependent on the Grand Trunk services and for no other reasons."
